

MOVE SUSTAINABLE NOW!

European Summer University: Logistics, Mobility and Sustainability
July, 1st – July, 26th 2013

Join our program!

Are you looking for:

- an academic program offering different perspectives both inside and outside the classroom?
- a truly European program?
- a program dedicated to show you solutions instead of solely showing you the problems?
- an interdisciplinary approach to the challenges of mobility?

Designed for students in the fields of business, computing, engineering and urban planning this summer program based on intensive practical oriented lectures and site visits will show you how mobility of goods and people can be approached in a sustainable manner.

Time to think and move forward.

Excellent academic approach

Our program offers you a unique opportunity to gain an interdisciplinary knowledge.
