

2014 HEINRICH WIELAND PRIZE

SCIENTIFIC SYMPOSIUM

50TH ANNIVERSARY OF THE HEINRICH WIELAND PRIZE

9.00 AM – 5.00 PM on October 21, 2014
Munich Residenz, Munich, Germany

Speakers:

Nenad Ban

ETH Zurich, Switzerland – “Beyond the prokaryotic ribosome”

Carolyn Bertozzi

University of California, USA – “In vivo chemistry”

F. Ulrich Hartl

MPI of Biochemistry, Germany – “Molecular chaperones in protein folding and proteostasis”

Reinhard Jahn, Heinrich Wieland Laureate 2014

MPI for Biophysical Chemistry, Germany – “Trafficking vesicles – what gives them their identity?”

Steven Ley

University of Cambridge, UK – “Natural products: an inspiration for discovery”

Kim Nasmyth

University of Oxford, UK – “How are chromosomes held together?”

James Rothman

Yale University, USA – “Regulation of neurotransmitter release”

Followed by a festive award ceremony for Reinhard Jahn in the evening.

For both events, participation upon registration only at: www.heinrich-wieland-prize.de

For junior scientists: poster prizes, travel grants, and “Meet the Laureates” session:
apply until September 15, 2014

HEINRICH WIELAND PRIZE

The Boehringer Ingelheim Foundation endows this international 100,000 euro award to honour outstanding research on biologically active molecules and systems in the fields of chemistry, biochemistry, and physiology as well as on their clinical importance: www.boehringer-ingelheim-stiftung.de.
